The Global Nonlinear Stability Of The Minkowski Space

Global nonlinear stability of Minkowski spacetime. § initial data prescribed on a spacelike hypersurface. § small perturbation of an asymptotically flat slice in 16 Aug 2017 . This book is devoted to the Einstein's field equations of general relativity for self-gravitating massive scalar fields. We formulate the initial value problem when the global nonlinear stability of Minkowski spacetime for self-gravitating massive fields. The authors obtain their solutions as dynamic developments of all initial data sets, which are close, in a precise manner, to the flat initial data set corresponding to the Minkowski spacetime. They thus establish the global dynamic stability of the latter.
